Day and night

Knee down knee down knee down for you yeah

Shey you want make I, shey you want make I

Shey you want make I knee down knee down knee down oh  
Knee down knee down knee down for you yeah

Why don't you listen when I talk?  
I don't like the way you drive off  
You don't have to curse, I ll back off  
I'm not recognizing my girlfriend

I was still thinking that shit was all rosy  
Now it's so cold in these streets and so lonely  
Out here fucking with chicks that don't know me  
Babes wey no dey close to your level, no story

Now im having cold nights and  
Low vibing  
It's too lifeless for my own liking

I don write things wey I want try speak  
I don type since, I'll still wipe it

Im tryinna tell you that I got fucked up  
Please dont throw that bag, it cost way too much  
See, you sef know say I no fit to cope  
I no go fit deny it's been way too tough

Shey you want make I knee down knee down knee down oh  
Knee down knee down knee down for you yeah

Shey you want make I, shey you want make I

Shey you want make I knee down knee down knee down oh  
Knee down knee down knee down for you yeah

Yeh yeh you dey control  
For my mind you dey control  
Yeh yeh you dey control  
For my mind you dey control

Yeh yeh you dey control  
For my mind you dey control  
Yeh yeh you dey control  
For my mind you dey control
