Oh my days! Femi look at her face  
I've been thinking of ways  
To just get in her space  
She dey kill me with the shake  
She got jiggle for days  
Man the figure insane  
I've been looking for the waist

Waist!

Where ya get that? So special  
I need some whipped cream, rose petals  
See a real G, don't settle  
Maa sare je tan, ko le seku

I need girls that are scantily dressed  
Excuse me please stand to the left  
Break your back and whine till you sweat  
And do things that you plan to regret

That mini skirt that you're wearing  
Is making your body very commandeering  
Surely there is no comparing  
'Bo Shey gb'eru eyan merin

She want throw it down  
She want make it clap  
She say she dey find correct guy wey dey sharp  
Say she dey find better man wey dey pack  
I dey your back  
Man no fit slack

Bad girl show man how you work it
