Sess (Tha Problem Kid)

I meet this dangerous girl for my guy wedding
She fine scatter, the body dey mad person
I come dey form posh based on the kind setting
But even she don't know I dey try getting

This chick got me up on a snap matter
She real fine, she said her name was Agata
She no dey Facetime
She dey minimize data
So I dey buy airtime forming big papa

I come rearrange her
Use my new tactics
The way I dey toast
You will think I do practice
I dey tickle the fancy of a true bad chick
Like I did magic it was too rapid

My Gs don't know why I provide the funds
Love ma cause she got the junk in the trunk
I dey try show say na stunt I dey stunt
Wait I show
Baby, what is it you want?

She say give me something light (something light)
Give me something light (something light)
Give me something light (something light)
I'm not really hungry, something light (come again)

She say give me something light (something light)
She want something light (something light)
She say give me something light (come again)
She want something light

That's how she gave them
That's how the date went
Shorty kee my dreams with only that statement
She say she will knock me if I will have patience
I won't even touch if she was dark naked

Yo, I was in shock
How come you are not talking right
See I can't give you something light
When we spoke on the phone
You were sounding nice
I'm in hot pepper soup of the catfish thighs

I dey weave
I dey dodge
When I see trap
You want something light
But you order six wraps
Order meat pie

Order pizza
And you still pack take away for your sister

And your eyes on the plate of the next guy
1 litre coke, no pls I don't like the pet size
You don't have spag, oya pls help me get rice
If its not too much, oya add french fries

She say give me something light (something light)
Give me something light (something light)
Give me something light (something light)
I'm not really hungry, something light (come again)

She say give me something light (something light)
She want something light (something light)
She say give me something light (come again)
She want something light

I want to be going oo
I will not sleep here
Can you give me something light for T-fare
Not even thanks for coming, you are wicked
Its not that I'm hungry o
I'm a big girl
Ogbologbo, she dey search for maga
I told her wait first
I go bless you after
You sef you go bow when you check the matter
This one we are doing is just dress rehearsal

She say give me something light
Something nice
But you still wearing bra
When I'm offing light
This your own attitude
It dey soften mic
And I'm taking shit easy
But its not skin tight
And it doesnt feel right
Cause you want to be brave
You go kill the morale
Take it straight to the grave
I be dat number 1
You can call me the greatest
And I know what you want
So just cut to the chase

She say give me something light (something light)
Give me something light (something light)
Give me something light (something light)
I'm not really hungry, something light (come again)

She say give me something light (something light)
She want something light (something light)
She say give me something light (come again)
She want something light
