Amber (Fire)

Fame On Fire

Pulling apart everything I've known
Pulling apart at me and my soul
Are you finished now?
Cus' I'm broken down
Why don't you go
Leave me on my own
And watch me fade out

Give me drugs give me love give me all your fire
(All I need now)
And take my heart, tear the spark, tear me apart and
(Watch me fall down)
My world just crashes down
(Ooh)
Give me drugs give me love give me all your fire
(Torn apart now)

The feeling of you whispers in my ear
The feelings of me never having fear
But it's over now
Makes me wonder how?
How could I know it was all just a show
And I watched it play out

Give me drugs give me love give me all your fire
(All I need now)
And take my heart, tear the spark, tear me apart and
(Watch me fall down)
My world just crashes down
(Ooh)
Give me drugs give me love give me all your fire
(Torn apart now)

I wanted more than your high
What you gave me never got me by
Your words were nothing but lies
We've run out of time

Give me drugs give me love give me all your fire
And take my heart, tear the spark, tear me apart and
(Watch me fall down)
My world just crashes down
(Ooh)
Give me drugs give me love give me all your fire
(Torn apart now)
Torn apart
Torn apart
