

Closure (The World)

Fame On Fire

I'm closer
I'm closer
If leaving means
I'll find closure
Find closure
'Cause I'm in a fragile state
And dying to feel okay
If I never leave this place I'm scared I'll break

One more day passes by we're in the same place
Now were stumbling over steps we retraced
Tell me who I am
I need to find myself again
I'm too caught up in circumstance to focus
That I'm losing my way, did you notice
Find out who I am
Someday you will understand

I'm closer
I'm closer
If leaving means
I'll find closure
Find closure
'Cause I'm in fragile state
And dying to feel okay
If I never leave this place I'm scared I'll break

I couldn't figure it out till it was too late
You took it all out on me I couldn't think straight
We gave it one more try
You swore you would make it right
Resentment left such a bitter taste in my mouth
I'd rather hold it all in than let my guard down
It all went up in smoke
And now I have to let you go

I'm closer
I'm closer
If leaving means
I'll find closure
Find closure
'Cause I'm in fragile state
And dying to feel okay
If I never leave this place I'm scared I'll break

I never meant to be a burden
Deep down I know I'm just fucking hurting
Isolated in this place we built
Gotta find myself
So I'll burn it all down
So I'll burn it all down

I'm closer
I'm closer
If leaving means
I'll find closure
Find closure

'Cause I'm in fragile state
And dying to feel okay
If I never leave this place I'm scared I'll break
