

## Emo Shit

## Fame On Fire

I don't really wanna have these feelings that I'm having  
You keep pushing me away but girl I fucking had it  
You said you were gonna change your ways but you haven't  
Damn you savage  
I been on my sad shit  
I don't really wanna have these feelings that I'm having  
You keep pushing me away but girl I fucking had it  
You said you were gonna change your ways but you haven't  
Damn you savage  
I been on my sad shit

Woke up alone  
The bed was cold  
You make excuses but they've gotten old  
Your friends are fake  
You'll never change  
How did I deal with this for so long?

You only call me when you come down  
You lead me on and then you walk out  
The fucked up thing is I don't blame you  
I just don't know what to do so

I don't really wanna have these feelings that I'm having  
You keep pushing me away but girl I fucking had it  
You said you were gonna change your ways but you haven't  
Damn you savage  
I been on my sad shit  
I don't really wanna have these feelings that I'm having  
You keep pushing me away but girl I fucking had it  
You said you were gonna change your ways but you haven't  
Damn you savage  
I been on my sad shit

I think that I had enough  
Cause when I get alone  
I get high and I get stuck  
I have the tendency to fall  
In love when off the drugs  
So can you pick me up?  
But I know she don't give a fuck, yeah yeah

Guess it's a heartbreak?  
I know you lie to me  
So don't tell me what your heart say  
You came into my life  
Just to haunt me  
So fuck you and all of your friends and never call me, yeah

I don't really wanna have these feelings that I'm having  
You keep pushing me away but girl I fucking had it  
You said you were gonna change your ways but you haven't  
Damn you savage  
I been on my sad shit  
I don't really wanna have these feelings that I'm having  
You keep pushing me away but girl I fucking had it  
You said you were gonna change your ways but you haven't

Damn you savage  
I been on my sad shit

I don't really wanna have these feelings that I'm having  
You keep pushing me away but girl I fucking had it  
You said you were gonna change your ways but you haven't
