

Now And Forever

Fame On Fire

Goodbye for now and forever

You take me for granted, I'm all alone
You think you know everything, but you don't
All the time that we spent just went down the drain
Cause I'm done with the torture and all the pain

I'm not faking it anymore
I'm done with all of your torment
Get the fuck out of my face
And let me breath
Just let me breath

Taking back my life for the night cause it's over
I will not give in, walls are thin, now I'm sober
You could've changed but you're the one to be blamed
So now it's goodbye, goodbye for now and forever
(And forever, and forever)

Don't think I never loved you
That shit just isn't true
You are the one who messed up
Stop acting so confused
I gave you all I had but that was a waste of time
One last confession to make
You broke my heart, so I'm

Taking back my life for the night cause it's over
I will not give in, walls are thin, now I'm sober
You could've changed but you're the one to be blamed
So now it's goodbye, goodbye for now and forever
Taking back my life for the night cause it's over
I will not give in, walls are thin, now I'm sober
You could've changed but you're the one to be blamed
So now it's goodbye, goodbye for now and forever

You bring out all the worst in me
I'm so sick of your fantasy
If you choose to leave then I'll let you go
But you fail to see you're so cynical
I won't let you bring me down
Carry the weight around
I gotta put up a fight
'Cause you know I'm...

Taking back my life for the night cause it's over
I will not give in, walls are thin, now I'm sober
You could've changed but you're the one to be blamed
So now it's goodbye, goodbye for now and forever
Taking back my life for the night cause it's over
I will not give in, walls are thin, now I'm sober
You could've changed but you're the one to be blamed
So now it's goodbye, goodbye for now and forever
