Fame On Fire

I went looking at pictures
I didn't wanna see
They brought back memories

You look happy, I guess
Got the life that you wanted
But it ain't with me

You would think by now
That I wouldn't care
It's been a couple years and
Yeah, I've had my share
Of other broken-up hearts
But I only shed real tears
Over ours

And now
I'm in this cold bright light
And this don't even
Feel like life
'Cause I don't have
The only woman
Who believed in me
Religiously

And now
I'm in the back of the church
Praying just to stop the hurt
'Cause I don't have
The only woman
Who was there for me
Religiously (Religiously)

Remember watchin' you play me
Our song on guitar
I thought I'd marry you
Act like I'm happier now
But all of my friends know
That ain't the truth
And lately life's been good
To me
Mama's healthy and
I'm helpin' out the whole family
Lot of people know my name
I made a little change
But that don't mean nothin'

'Cause now
I'm in this cold bright light
And this don't even
Feel like life
'Cause I don't have
The only woman
Who believed in me
Religiously (Religiously)

And now

I'm in the back of the church
Praying hard
Just to stop the hurt
'Cause I don't have
The only woman
Who was there for me
Religiously (Religiously)

You brought me to God
And I put you through Hell
You were all about us
I was all about myself
What kind of man would lose
A woman like that?
If my soul could be forgiven
I would give it all back

Now
I'm in this cold bright light
And this don't even
Feel like life
'Cause I don't have
The only woman
Who believed in me
Religiously

And now
I'm in the back of the church
Begging God
Just to stop the hurt
'Cause I don't have
The only woman
Who believed in me
Religiously (Religiously)
I ain't got the only woman
Who was there for me
Religiously
