

Spiral (Justice)

Fame On Fire

Send me into a spiral

I did my best
To avoid any bad blood with you
Didn't last
Turns out the rumors I heard were true

You dug a hole to bury me
You dragged me through the mud
And all the things I did for you were not enough

You're the poison inside my veins
Memories I can't erase
You just keep pulling me under
You're the sickness inside of me
Toxic insanity
Sending me into a spiral
Spiral

You fooled me once
That's the shame on me
That's price I'll pay to get away
'Cause I'm done
Holding back my tongue
I'll never be at peace till your time has come

You dug a hole to bury me
You dragged me through the mud
And all the things I did for you
Were not enough

You're the poison inside my veins
Memories I can't erase
You just keep pulling me under
You're the sickness inside of me
Toxic insanity
Sending me into a spiral
Spiral

My turn to drag you down
Bleh
It's never enough
It's never enough

You're the poison inside my veins
Memories I can't erase
You just keep pulling me under
You're the sickness inside of me
Toxic insanity
Sending me into a spiral
