

Fire On The Highway

Family Force 5

Room to wander, open road
Mile marker, cruise control
Strobing headlights, passing cars
Constellations, shooting stars

Pedal to the metal and I'm feeling alright
Streetlights are blending with the pale moonlight

Fire on the highway (wide awake)
Music on the airwaves (woah)
Hand out the window, gonna feel the cool night (oh, oh, oh, woah)
Imma keep driving for the rest of my life (oh, oh, oh, woah)
Yeah yeah yeah yeah
Yeah yeah yeah yeah yeah yeah yeah yeah

Fueled by wonder, compass rose
Where I'm headed, I don't know
But I'm never stopping, insomniac
Rear view mirror, no looking back

Pedal to the metal and I'm feeling alright
Streetlights are blending with the pale moonlight

Fire on the highway (wide awake)
Music on the airwaves (woah)
Hand out the window, gonna feel the cool night (oh, oh, oh, woah)
Imma keep driving for the rest of my life (oh, oh, oh, woah)

Pedal to the metal and I'm feeling alright
Streetlights are blending with the pale moonlight

Fire on the highway (wide awake)
