

Just As I Am

Family Force 5

Just as I am, without a plea, coming undone
Just as I am, your love alone, breaking me down

And I'm reaching out, reaching out, reaching out, reaching out for you
And you're reaching out, reaching out, reaching out, reaching out for me

I know you love me, I know you love me
I know you love me, just as I am
You always take me, you always take me
You always take me, just as I am

And you say
Doesn't matter where you've been
Doesn't matter what you've done
Doesn't matter where you're from
All I want give you, give you is my love

You always take me, you always take me
You always take me, just as I am

Just as I am, without a doubt fighting my fear
Just as I am, you're chasing me, keep chasing me, you're chasing me, so sincere

And I'm reaching out, reaching out, reaching out, reaching out for you
And you're reaching out, reaching out, reaching out, reaching out for me

I know you love me, I know you love me
I know you love me, just as I am
You always take me, you always take me
You always take me, just as I am

And you say
Doesn't matter where you've been
Doesn't matter what you've done
Doesn't matter where you're from
All I want give you, give you is my love

You always take me, you always take me
You always take me, just as I am

I can't live without your love within me
I can't help myself, I'm honestly just

Reaching out, reaching out, reaching out, reaching out
Reaching out, reaching out for you
(Reaching out) for you (reaching out)
And you're reaching out, reaching out, reaching out
Reaching out, reaching out, reaching out for me
(Reaching out) for me (reaching out)

I know you love me, I know you love me
I know you love me, just as I am
You always take me, you always take me
You always take me, just as I am

And you say

Doesn't matter where you've been
Doesn't matter what you've done
Doesn't matter where you're from
All I want give you, give you is my love

You always take me, you always take me
You always take me, just as I am

Reaching out, reaching out, reaching out, reaching out
Reaching out, reaching out
Just as I am
