

When Everything's Changing

Family Force 5

We're all running somewhere
Will we ever get there
This race and this pace
Unsustainable
We're all moving so fast
When I stop and look back
It's You, oh it's You
You're forever true

When everything's changing
You are my constant
I'd be lost without You
I'd be lost without You
When everything's fallin'
You are still standing
I'd be lost without You
I'd be lost without You

Spinning out of control
You're the hand that I hold
Each step, every breath
Never failing me
In the chaos of life
You were right by my side
You are, yes You are
The one that I cling to

No matter what I'll always know
You're the road that leads me home
You're the love that won't let go
You won't let go
You won't let go
