

You were there when I hit rock bottom
You were there when I left and wandered
You see inside of me
You see things I can't see (Oh)
I'm in need of an XRAY

XRAY [x8]

You were there when I lost my cool
You were there when I act a fool (Oh)
I'm in need of an XRAY

You see through me
You are my XRAY
My heart believes
You are my XRAY
Deeper than flesh and bone
You show me my soul (Oh)
You are my XRAY

XRAY [x8]

You were there when I hit rock bottom (And every moment in between)
You were there I left and wandered (You never lettin' go of me)
Take a look inside of me
Show me what I can't see (Oh)
I'm in need of an XRAY

Watch out for the lightning that's charging through me
10,000 volts of electricity
Rumbling like thunder
That's under my feet
Translucent
You look at my heart like a blueprint

XRAY [x8]

You were there when I lost my cool
You were there when I act a fool
You see inside of me
Show me what I can't see (Oh)
I'm in need of an XRAY
