Walking down the avenue
A beautiful strange
Creature of the night
Are you man or woman
Who kills my destiny, my love

I want you treat me right
I mend you mercy have out lost the fight
I mend you feat have compassion for me
Oh baby what□s it gonna be

You know you make me wanna die for you Oh I will lie for you It doesn□t matter your shaddow forever The balance side of me You know you make me wanna die for you Oh I will lie for you And all my living is giving, beliving Than I□ll be never free

Another shaddow of doubt Youll break my heart Youll crash me Youll a burning fire The end of my travel What happened To freedom of joice

I want you treat me right
I mend you mercy have out lost the fight
I mend you feat have compassion for me
Oh baby what□s it gonna be

You know you make me wanna die for you Oh I will lie for you It doesn□t matter your shaddow forever The balance side of me You know you make me wanna die for you Oh I will lie for you And all my living is giving, beliving Than I□ll be never free

Tango, tango, tango, tango Are you man or woman

You know you make me wanna die for you Oh I will lie for you
It doesnOt matter your shaddow forever The balance side of me
You know you make me wanna die for you Oh I will lie for you
And all my living is giving, beliving Than IOOI be never free
Who kills
