

Follow Me

Fancy

Don't be a fool don't ask my name
I may not be the one you acclaim
I've got it all, so if you do
The promised land is waitin' for you
Come to the land where milk and honey flows
Come and dance your life away
I need everyone to come and stay

Follow me, follow me
I'll give it all to you
I'll make your dreams come true
So follow me, my magic's free
Follow me, follow me
I'll give it all to you
We'll have a celebration
I'll send you flyin' high
I can take you all to the land of make-believe
So won't you follow me

It is my pleasure to invite you tonight
To my Garden of Eden
To heaven and hell

Frost steals my world when angels fall
Don't let me down I'm takin' a call
I'll blow your mind I want your soul
I'll blow your minds I want you so
Your hearts of glass - all under control
Come drink my wine and taste my sugar 'coz
I've got riches here to share
Be my lovers now - if you dare
