

In Shock

Fancy

Meaning no retraction
I need no reaction
One more face in the crowd
When the band is playing
Don't know what to say
Base drum beat is so loud
Love potion, emotion
Show me how you can dance
You beacon, I reacon
Could be under a chance

Am I going crazy
Everything is hasty
What's that look in your eyes
Power be between us
Jupiter and Venus
Stars light up in surprise

We know it, let's show it
Life just won't be the same
Explosion, confusion
Let me stand in your flame

I'm in shock, I'm in shock
My house is falling down and my boat will rock
I'm in shock, I'm in shock
My head is spinning round and my knees will knock

I'm in shock, I'm in shock
I guess you found the key and it fits my lock
I'm in shock, I'm in shock
The moment you're with me can not stop my luck

We don't need dimension
Reason or intention
Love's all right in this role
No one here to blame us
compromise or chain us
No false note in your soul

We know it, let's show it
Life just won't be the same
Explosion, confusion
Let me stand in your flame

I'm in shock, I'm in shock
My house is falling down and my boat will rock
I'm in shock, I'm in shock
My head is spinning round and my knees will knock

I'm in shock, I'm in shock
I guess you found the key and it fits my lock
I'm in shock, I'm in shock
The moment you're with me can not stop my luck

We know it, let's show it
Life just won't be the same

Explosion, confusion
Let me stand in your flame

I'm in shock, I'm in shock
My house is falling down and my boat will rock
I'm in shock, I'm in shock
My head is spinning round and my knees will knock

I'm in shock, I'm in shock
I guess you found the key and it fits my lock
I'm in shock, I'm in shock
The moment you're with me can not stop my luck

I'm in shock, I'm in shock
My house is falling down and my boat will rock
I'm in shock, I'm in shock
My head is spinning round and my knees will knock

I'm in shock, I'm in shock
I guess you found the key and it fits my lock
