

My Emotional Way

Fancy

I'm so lonely hurting inside
Still I'm waiting
Why did you fight
I'm sorry
I'm so sorry
Now I'm ready, but you'll have to choose
Yeah I tell you, I'm not scared to loose
You're lying
Yes, you're lying
Time flies around you
You wanna be free
And everything a brand new start
But now things are changing
And I'm gonna see
You're trying hard to keep us apart

My emotional way
A story in my mind
Keeps me praying this day
Gonna leave one love behind

My emotional way
A story tells me why
Choose your love come what may
Stay with me or say goodbye

No more secrets hiding from me
No more loving I live in a dream
Forever
Yes, forever
Time flies around you
You wanna be free
And everything a brand new start
But now things are changing
And I'm gonna see
You're trying hard to keep us apart
