No Tears

In a far away land bright lights are going down Reachin' out for a hand Cold hearts walking around. With a gun at my side I'm like a sacrifice Now I feel like I'm jailed Stop the crying Have I failed ? No tears No children filled with fear Life bringing war so near No tears No children fear - like a story - like hand in hand - pain and glory - please understand. Running wild in war Dark nights go on and on Children wait by the door This fighting feels so wrong Are we slipping away Remembering yesterday ? Gotta live in our world Take away fear Have no tears. No tears No children filled with fear Life bringing war so near No tears No children fear - like a story - like hand in hand - pain and glory - please understand.
