

Peace And Harmony

Fancy

We're all part of the scenery.
Like actors on a stage
We play in different comedies
While living in a cage
It's one of nature's favorite games
To watch our eyes unfold
We believe we are invincible
In the end we're all just frowning of pride

We can live, in the center of the United Galaxy.
You and me, we share the same old shades, no matter what your race.
