

Wait for You

Fantasia

If I can get away, get away
With you, just one night,
just one night, just one night would do
If I can get away, get away
With you, just one night would do

It's getting close to winter,
ask me why those summers don't come easy
Turn it to the other side,
the grass is greener, you should see it

I wanna travel the world
But I'm too scared to do it alone
Come closer, I am your girl
You know I can bear to be on my own

If I can get away, get away
With you, just one night, just one night, just one night would do
If I can get away, get away
With you, just one night would do
On and on and on and on, I wait for you
On and on and on and on, I wait for you
On and on and on and on, I wait for you
Just one night would do

We know that London is not so pretty any time after September
I wanna plan a trip but you boys always take up your agenda

I wanna travel the world
But I'm too scared to do it alone
Come closer, I am your girl
You know I can bear to be on my own

If I can get away, get away
With you, just one night, just one night, just one night would do
If I can get away, get away
With you, just one night would do
On and on and on and on, I wait for you
On and on and on and on, I wait for you
On and on and on and on, I wait for you
Just one night would do

Tell me if I've crossed the line
I know you've got your life
I'm sure that I'll be fine
Tell me if I've crossed the line
I know you've got your life
I'm sure that I'll be fine

If I can get away, get away
With you, just one night, just one night, just one night would do
If I can get away, get away
With you, just one night would do
On and on and on and on, I wait for you
On and on and on and on, I wait for you
On and on and on and on, I wait for you
Just one night would do
