

Rant Rushmore

Fantastic Negrito

Most of my fear is sittin right here with you, for the rest of my life

All of this pain, all this came from the games

That the mommas and daddies played and abused

So I'm trying to get away, try to break free from the twenty first century

Slaveship drama mmmmm

And the beautiful dreams it seems has died to a bitter scene

I'm eating cold macaroni for dinner

I'm a lifelong sinner

Amen, Amen

Amen, Amen

I can feel that change coming

Bitch eat my cancer then I know we're really dancing

Bitch eat my cancer then I know we're taking chances

Bitch eat my cancer then I know we're really dancing

Bitch eat my cancer

Most of my guilt and all of my tears flow like a river

'Cause I failed and I couldn't deliver

That's when I started to shiver

I said fuck the whole world I'm a little girl

I'm a little girl, I'm a big black dog, I'm a killer

I'm all over the place

I'm trying to rehabilitate

From the self hate from the self-rape

I forgive you mother (ohh life)

Lord, I'm down on my knees praying I feel the shame

For all the things I've done wrong (ohhh!)

Amen, Amen

Amen, Amen

I can feel that change coming

I still feel that change coming

Bitch eat my cancer then I know we're really dancing

Bitch eat my cancer then I know we're taking chances

Bitch eat my cancer then I know we're really dancing

Bitch eat my cancer

Amen, Amen

Amen, Amen

I can feel that change coming

Bitch eat my cancer then I know we're really dancing

Bitch eat my cancer then I know we're taking chances
