

Made of ice  
The tears won't fall down, no they're crystallized  
My body's numb now but it's kinda nice  
I couldn't take it anymore (I couldn't take it anymore)

Left me crying on the bathroom floor (bathroom floor)  
Wait a minute, what was that all for? (That all for)  
Now you're banging on my door like a ghost (like a ghost)  
But it's too little, little too late

Made of ice, made of ice  
Look at what you made of me  
Recognize, recognize  
You can't even recognize me  
How can you look at my stone-cold eyes?  
You took a burning red heart and made it ice, I'm  
Made of ice, made of ice  
Look at what you made of me  
I'll survive, I'll survive  
But every breath I take is heavy  
How can you look at my stone-cold eyes?  
You took a burning red heart and made it ice, oh-oh

Dead to me (dead to me)  
Have you forgotten what you did to me? (Did to me)  
You put my flame out, you say I've changed now  
I couldn't take it anymore

Left me crying on the bathroom floor (bathroom floor)  
Wait a minute, what was that all for? (That all for)  
Now you're banging on my door like a ghost (like a ghost)  
But it's too little, little too late

Made of ice, made of ice

Recognize, recognize  
You can't even recognize me  
How can you look at my stone-cold eyes?

En premier je senti un froid glacial couler dans mes veines  
J'avais peur et ensuite le soulagement  
Avec la réalisation qu'enfaite  
Mon cœur ne peut plus se briser en deux
