Far East Movement

Different places, different faces
But our love still feels the same when you're holding me
You can follow your dreams, explore the world, sail the seas
And I'll meet you on the other side in harmony
I'll let you lead, and I'll follow
Ain't no valley way too deep that's gonna keep you away from me

You might be far away
Don't care, no time or place
I'll meet you where you're at on the map
I'd travel near or far
No boat, no plane, no car
Keep me from where you are, running back

Ooo ooo

In another world, in another world, love lost
Tryna find your heart, was a little red dot
Racing through your thoughts like mileage
Million pictures of you was running through my eyelids
Raise your flag for me if you a nation away
I'll be right there, no place out the way
Over hills or mountains, through the valleys
Always on the map where you found me

Our little place, a little way through the maze
No one around
See, it's just you and me
Illuminate our own little county
Well you'll never see a bluer day
Only thing you need to say
Take me here, take me there (Take me away)

You might be far away
Don't care, no time or place
I'll meet you where you're at on the map
I'd travel near or far
No boat, no plane, no car
Keep me from where you are, running back

Ooo ooo

Home is wherever you want it to be
Girl, if it's right here with me, then you're home
oooooooooooo
oooooooooooo

oooooooo oooooo
oooooooo ooo Ohhh

You might be far away
Don't care, no time or place
I'll meet you where you're at on the map
oooooooo oooooo
oooooooo ooo

Ooo ooo

Ooo on the map

You might be far away

Don't care, no time or place

I'll meet you where you're at, right on the map
