

## Another Way Out

Far

She said she liked the way I felt  
and breaking down my boundaries  
She found her way around  
Myself, I wished I'd never come home  
Kicked in and sure you wanted it  
You wish you'd never gone or thought of it  
Another Way Out  
And you find yourself alone  
Crazy and alone again  
You wish you weren't so afraid  
You wish something would come along  
To make you want to

So find me something you would never know  
Wade into my water  
Find me something good
