

# Cowboys And Angels

Farmer Boys

To simple to be true  
When you prefer your lies  
You don't want to see through  
It's right before your eyes  
Believe me, there's something  
That you have never seen,  
When night falls, there's nothing  
To save you from the things,  
In your darkest dreams.

[Chorus:]

And in this ghosttown it's sundown  
It's you and it's me  
I'll keep my eyes open wide  
And I will ride with...

...Cowboys and angels

The horses are restless  
And they can smell the fear,  
The streets now are empty  
The wind is all you hear,  
It's too late, to change now  
It's time to win or loose  
It's just me, and you now  
The weapons that you choose  
Were made for fools

[Chorus]

Cowboys and angels  
Cowboys and angels
