

## Again Today

Faron Young

Again today I almost lost my mind  
In the emptiness that you left behind  
Then I remember how you hurt me  
Before you went away  
My memory saved my life again today

Again today the heartaches took control  
And the hurt you left slipped into my soul  
Then I remember how you used me  
I was just a game you play  
My memory saved my life again today

Again today I caught myself crying  
Like so many times before I almost felt like dying  
Then I remember how you hurt me  
Before you went away  
My memory saved my life again today  
My memory saved my life again today
