

# All At Once It's Forever

Faron Young

All at once it's forever  
At least as far as our love is concerned  
All at once it's forever  
And oh what a lesson my heart has learned

All at once it's forever  
That was the word you used as I recall  
The day you promised to love me  
As long as you knew that I needed you most of all

Your forever caught me unexpectedly  
I thought forever was a long long time  
Did you forget the promises you made to me  
Or did your heart just have a change of mind

All at once it's forever  
The first forever that I ever knew  
All at once it's forever  
Forever started when I started losing you  
Forever started when I started losing you  
Forever started when I started losing you
