I've searched through each moment of each passing hour But your memory grows stronger I find

Oh they tell me in time I'll forget you but somehow I can't fin d the time

They tell me in time I'll find another and happiness again will be mine

Oh they tell me in time I'll forget you but somehow I can't fin d the time

Oh something each moment reminds me of you you're always in up on my mind

Oh they tell me in time I'll forget you but somehow I can't fin d the time

Oh something each moment...

Oh something each moment...
