

I'll Be Satisfied With Love

Faron Young

Just let me love you as long as I live
Be a taker and just let me give
And I'll be satisfied with love
Just let me make you a part of my dreams
And my darling is strange as it seems
I'll be satisfied with love

It's true and I don't know
This love could end in tears
But I will love you strong enough
To last through the years

I'd be happy just be near you each day
Funny that I should feel this way
But I'll be satisfied with love

It's true and I don't know
This love could end in tears
But I will love you strong enough
To last through the years

I'd be happy just be near you each day
Funny that I should feel this way
But I'll be satisfied with love...
