

Moonlight Mountain

Faron Young

I'm all alone on moonlight mountain
We used to drive up to moonlight mountain
Park all alone in the dark
So close to stars that did appear
That heaven must be somewhere near
The top of moonlight mountain

We listened to the radio
(We listened to the radio)
The city lights were far below
(The city lights were far below)
And in your arms all I knew
Was what I wish to know

So here am I on moonlight mountain
Parked all alone in the dark
My dreams have turned to memories
I'll spend so many hours like these
Alone on moonlight mountain

My dreams have turned to memories
I'll spend so many hours like these
Alone on moonlight mountain
