

Step Aside

Faron Young

Angry words were spoken and I left my baby in a cloud of gloom
Got into my car and drove around until I spurted this saloon
Came inside and bought a drink then I saw you and felt a burnin
g glow

Got the urge to hold you tight but if I try refuse me tell me k
now

Step aside if I try to get near you lock your heart if I start
making time

Walk away if I say that I need you step aside if I step out of
line

Bitter is my feelings for my baby and the things she said so cr
uel

Half of me says cheat on her but part of me says stop don't be
a fool

Don't let me get close to you cause if I do I won't be very str
ong

Save me from my conscience and keep me from being sorry later o
n

Step aside if I try to get near you...

Step aside if I step out of line
