

Vacation's Over

Faron Young

Vacation's over (It's over, it's over)
So ends our love affair (Our love affair)
Friends tried to tell me not to care
(To tell me not to care)

Vacation's over (It's over, it's over)
I'll never be the same (Never be the same)
For how can I with a heart full of pain
(With a heart full of pain)

We dance night after night
Shared kisses so tender and wild
Who would have thought such a starry sky
Could've brought such a spark

Vacation's over (It's over, it's over)
I'm left with such regret (It's over, it's over)
For you, your kiss, your love, I can't forget

We dance night after night
Shared kisses so tender and wild
Who would have thought such a starry sky
Could've brought such a spark

Vacation's over (It's over, it's over)
I'm left with such regret (It's over, it's over)
For you, your kiss, your love, I can't forget

(Vacation's over)
