

You're Still Mine

Faron Young

You're still mine each moment you're away
You're still mine, don't forget it for a day
Just go on and have yourself a time
Just as long as you remember you're still mine

Don't you know how much I miss ya
'Cause I never could resist ya
And I'm sure while you're away
You'll have lotsa chances
At finding new romances
But remember what I have to say

See your friends and have yourself a ball
Dance and sing, won't bother me at all
But don't fall for anybody's line
And remember when they hold you, you're still mine

Don't you know how much I miss ya
'Cause I never could resist ya
And I'm sure while you're away
You'll have lotsa chances
At finding new romances
But remember what I have to say

See your friends and have yourself a ball
Dance and sing, won't bother me at all
But don't fall for anybody's line
And remember when they hold you, you're still mine
