

Worldwide

Fashawn

Oh, oh, oh, oh
Oh, oh, oh, oh
Oh, oh, oh, oh
Oh, oh, oh, oh

That she complain all the time
That I'm a wait on the ground
Doing days, ever we stay, all the places I fly
Out here rise, makes you wild with my niggas who down the ride
Find, multiply my numbers never mind!
Hey, ALS, every weekend don't be surprised
What you do is give me sit back, love help me recline
This is the life! I hope it last
Just a high school drop out, sitting in first class
On my way to Osaka, champagne is impostor
Damn shame, a young and make it's way out the products
This baby I remember nights before the flashy lights
Only flight that I ever saw was a pair at night Shawty!

Oh, all I really wanna know
All I really wanna do
Is spend a little time with you
As long as you know!
Baby, that I'm worldwide, I'm worldwide
I know you know, yeah, yeah
Baby, that I'm worldwide, I'm worldwide
I know you know, yeah, yeah

JFK every weekend you wonder why
All she do is asking nigga to stay and I decline
I realize I'm worldwide with my niggas who're down to fly
If it ain't about that money, Shawty pay it no mind
People say that I live such an expensive life
All I need is a passport and a samp tonight
A G4, I'll probably land in Japan tonight
WiFi on the flight, hit the fam on Skype
And touch down in the city, every town on my grizzly
I get around lifting now as if to be found
Did you miss me baby? I've been on my hustle
Penguins is what I'm chasing
And for your information, I've never been on vacation
I'm saying no!

Oh, all I really wanna know
All I really wanna do
Is spend a little time with you
As long as you know!
Baby, that I'm worldwide, I'm worldwide
I know you know, yeah, yeah
Baby, that I'm worldwide, I'm worldwide
I know you know, yeah, yeah

What if I would have stayed on my hood?
Probably been up to no good
Saying goodbye to the ghetto and hello Hollywood
Still puffing in public, I wouldn't change if I could
Usually out there for paper, man but those back words

I got a custom in customs, drinking vodka in Russia
I go shopping in Harlem and make you stop at the rucker
Tequila in Tijuana got a queen in Rwanda
Another one out in Ghana, beast of my beast I encounter
Eazy E in OE, the only thing we got in common
The chick and chi city that we blow
We call them Wendy oh, oh
He's back at it, the iron lung never asthmatic
And you're acting as you've never seen the athletes, Shawty

Oh, all I really wanna know
(And I know that you know
That is international F and I'm back in effect)
All I really wanna do
Is spend a little time with you
As long as you know!
Baby, that I'm worldwide, I'm worldwide
(You should know)
I know you know, yeah, yeah
Baby, that I'm worldwide, I'm worldwide
I know you know, yeah, yeah
