

# Left & Right

FAST BOY

(Left and, left and)

Hey, there's a way  
To break out of the system  
And the sky won't be gray tonight  
Wait, we can change  
Let our hearts be the rhythm  
Shine like a thousand lights

Is it okay if I say that I want you?  
'Cause the way that you move on the dancefloor  
Just makes me lose my mind  
And you shake it left and right  
Ain't no way in the world I could stop you  
You go low, low, low, you know how to  
You make me lose my mind  
When you shake it left and right

Shake it left and right  
You make me lose my mind  
Shake it left and right

We drift away  
To the sound of the music  
I need you night and day  
Dive in the blue  
We don't think, we just do it  
We'll never be the same

Is it okay if I say that I want you?  
'Cause the way that you move on the dancefloor  
Just makes me lose my mind  
And you shake it left and right  
Ain't no way in the world I could stop you  
You go low, low, low, you know how to  
You make me lose my mind  
When you shake it left and right

Shake it left and right, right, right  
Shake it left and right, right, right  
Shake it left and right, right, right  
You make me lose my mind  
Shake it left and right, right, right

Is it okay if I say that I want you?  
'Cause the way that you move on the dancefloor  
Just makes me lose my mind  
And you shake it left and right  
Ain't no way in the world I could stop you  
You go low, low, low, you know how to  
You make me lose my mind  
When you shake it left and right
