

Oleoleola

Fast Food Orchestra

What will be your life without me oleoleola
Your mind is inside out, that's what I see oleoleola
I guess I confused your head, It's warped but not broken yet
Your moods always drove me mad, that I couldn't stand
How care 'bout this callow bird, with naked and funny wings
Cage's open it's time to fly

Now you're free as a bird on the tree
You're not a chick you used to be
I give up the struggle no matter I miss
'cause there's gotta be more to life than just this

Cage is open now you can fly leo leo leola
Tie is broken baby bye bye leo leo leola

What will be my life without you oleoleola
I'm lost in the nightlights, lonely and blue oleoleola
You're flying flying alone near the clouds but far from my home
Flying flying alone I don't know if you want to come
You're flying flying alone near the clouds but far from my home

And now you need my hands to solve your problems
5 days ago you gone away now you're back and you want to dance

Where have been when I wanted to bring bring
Clouds from the sky and other likkle tings tings
Yeah baby He doesn't need you like me and I could give you much
more
Cage is open, you're free GO! I say
No I'm not myself when you're away
But what I know is I can't keep in love with me yeah of course
that I can't
