Nowhere Road

There's trouble on the subway There's something on the track There's a dead end waiting and We can't go back So take it to the highway Head back and open wide Step right up and take a nowhere ride

It's a nowhere road It's a nowhere road No matter where it goes it's a Nowhere road It's a nowhere road and I'm tired It's a nowhere job and I'm fired It don't matter what they say You can't get there going this way

From L.A. to Miami And all points in between Look outside you get the same old scene You take it to the highway You travel far and wide Caterpillars carving up the country side

It's a nowhere road It's a nowhere road No matter where it goes it's a Nowhere road It's a nowhere road and I'm tired It's a nowhere job and I'm fired It don't matter what they say You can't get there going this way

It's a nowhere road and I'm tired
