

## White Collar

Fastball

Sunshine overdose  
Body looks good but your brain is toast  
Driving up and down the pacific coast  
Grand wizard of the weenie roast  
Sunset and Beverly Drive  
Bees don't fly too far from the hive  
You'll get ten years but you'll only serve five  
Get religion and say you're sorry

Oh, white collar  
What'd you go and do?  
White collar  
You thought of only you again  
The holy ghost forgives you  
White collar

Sundown nowhere to run  
You used to have a future now you got none  
Maybe go to Mexico and have some fun  
Ain't a real crime if there ain't no gun  
Bad luck trouble ahead  
Time to pay for the life you led  
They're gonna get you alive or dead  
Just get religion and say you're sorry

Oh, white collar  
What'd you go and do?  
White collar  
You thought of only you again  
The holy ghost forgives you  
White collar

Sunrise, it's visiting day  
Showing up with nothing to say  
25 minutes and they're on their way  
They get to leave you gotta stay

Oh, white collar...
