

Don't Stop The Fight

Fastway

Emergency emergency, heat is on and burning me.
Superstitions in my mind, over and over losing time
Sometimes you feel so far away, sometime it gets so hard
to say
Don't stop the fight, don't die now don't stop the fight
don't die now

The pressures keep on rising, every night a crazy dream.
I've been hurting, no one knows through it all the pain
still grows.
Sometimes you feel so far away, sometimes it gets so hard
to say
Don't stop the fight don't die now don't stop the fight
don't die now.

He was a rotten boy he never liked being kicked around
[no good]
He was a foolish boy dont ask me why.
But he could steal your heart away.

Sometimes you feel so far away sometimes it gets so hard
to say
don't stop the fight don't die now don't stop the fight
don't die now.
