

Kill Me With Your Heart

Fastway

Every night, I see in your eyes
Something bad, something ain't right
Is it someone, somebody new
Taking me on a ride for a fool
You've had guys like me before
Now they're gone, don't ask me for more
I'll say goodbye, I've had enough
It's too bad, baby, isn't it tough
In the city of lonely light
I see a candle burning bright
I said goodbye to that system of love
She says, I got to wonder why
Let me be, I've no desires
I find it hard to compromise
The way you touch, you bring me down
I've been fooled and now that you're not around
Let me know, don't hesitate
Tell me now, I just can't wait
Well, I've got news, and it's all bad
Your stupid game's been driving me mad
In the city of lonely light
I see a candle burning bright
I said goodbye to that system of love
She says, I got to wonder why
Kill me with your heart
Kill me with your heart
Kill me with your heart
Give me some love like dynamite
Come on and show me
That you're mine, mine, mine tonight
Everybody's looking for love

Everybody's losing time
Everybody's feeling the heartache
Tell me, woman, what you had in mind
Kill me with your heart
Kill me with your heart
Kill me with your heart
Give me some love like dynamite
Come on and show me
That you're mine
Kill me with your heart
Kill me with your heart
Kill me with your heart
Oh, give me some love like dynamite
Come on and show me
That you're mine, mine, mine tonight
Kill me with your heart
I'm taking no more
Kill me with your heart
No, no, no
Kill me with your heart
I'm taking no more
Kill me with your heart
Every night
Kill me with your heart
But you're losing the fight

Kill me with your heart
I'm taking no more, no
Kill me with your heart
I'm taking no more
Kill me with your heart
No, no, no
Kill me with your heart
I'm taking no more, no more
Kill me with your heart
Every night
Kill me with your heart
But you're losing the fight
Kill me with your heart
I'm taking no more, no
