

# Shock Out

Fastway

You set my soul on fire  
You got your eyes on me  
I was a freedom rider  
You got no misery  
Ten ways to make it happen  
Ten ways to let it go  
You mess around with heaven  
And it's a hell so low

Hey, you, just pick up the phone  
I can say it's over  
My girl, your heart like a stone  
Will be your toy for tonight

Shock out, baby, won't you leave me alone  
I know you know that's how to sing the song  
Got no respect for love in flesh and bone  
Oh baby, you blew my mind away

Shock out, baby, now you're all on your own  
Go fool somebody else, you won't be long  
I know you'll never ever be the one  
So come on baby, leave here today

I know I can't get higher  
You're ready to believe  
The laws of your desire  
But there's no room for me  
Ten ways to make it happen  
Ten ways to let it go  
No matter what is after  
No matter what's before
