

Breakthrough

Fat Freddy's Drop

I'm looking out from my station
Feeling a love that lives in creation
I see the sun from my window
Waking up hopeful I wanna let go
I'd give it up for the sweet sound
Moving around my soul I wanna get down
I need someone here to talk to
You and I could be the next ones to break
Breakthrough (7x)
Whatever we do
I wanna wake up with the sun
Come wake up with the sun yeah
I want wake up with the sun on my face
Another night has come and gone
I want to never want for anything today
Except someone here to talk to
You and I could be the next ones to break-
Breakthrough (7x)
Whatever we do
I want to wake up with the sun
I wanna wake up with the sun
Wake up with the sun
Wake up with the sun...
