Tell Me  
Tell Me  
Tell Me  
You've got to tell me

Tell Me  
Tell Me  
Tell Me  
Ohh, you've got to tell me

Tell me what's the world with no soul?  
Ooh, you got to tell me  
Ooh  
Tell me what's the world with no soul?  
I'm gonna need to know

Ooh  
What would it be  
Tell me what would it be  
with no soul?

What what would it be?  
Would it, would it, would it be  
a no soul

Tell me what's the world with no soul  
Oh ooh  
Tell me what's the world with no soul  
Oh so cold  
Tell me what's the world with no soul  
Woah woah woah  
Tell me what's the world with no soul  
Oh so cold  
Tell me what's the world with no soul  
Tell Me  
You've got to tell me  
Tell me what's the world with no soul  
Oh so cold  
Tell me what's the world with no soul  
No no, ooh  
Tell me what's the world with yeah, a no soul  
Please  
Tell me what the world is yeah

You've got to tell me  
Tell me what the world is yeah (2x)

The world to me, is more than evolution  
More than money, more than technology

I believe, that there's more than evolution  
Like you can change your mind, but you can't change  
your destiny

Blood is blood, and thicker than water  
Men will die, to live forever

The race is on and I could be standing still  
'Cos I have faith in something more than my will

Ooh, soul  
Yeah, soul

Tell me what's the world with no soul  
Oooh  
Yeah, soul  
Yeah
