

Special Edition

Fat Freddy's Drop

Yeah, yeah, yeah
One in a million is the one for me
Ain't no other
We are lining up, baby
Just to see what's so special
About your recipe
I'm thankful for what you've got, babe
'Cause ain't nothing in this life for free
I may not be a lot to you
But sure you mean a lot to me

Everybody wants it
Everybody needs it
Everybody wants it
Everybody needs it
Special edition
Special edition, baby
Come get it baby
Come get it baby
C'mon now
I know you really really really want it
You want it

No worries in the party tonight
(Hear what I say)
No worries in the party tonight
(Hear what I say)
No worries in the party tonight, right?
I said no worries in the party tonight, right?

I said no worries in the party 'cause the party lasts longer
Blasting up your speakers, back off the transponders
Received the signal and blast it back stronger
My crew and your crew, yeah we come to conquer
Bring the nice vibe, we bring this to sing
Keep your heads up, don't sweat the small things
Now's not the time, just give thanks and sing:
"Goddamn Fat Freddy's, they made my day!"
Love, life and laughter, that's what we're after
With the next verse, with the next chapter
With the next rhythm and with the next song
With the next town, the boys on the run

Run, run, you know how it's done
Straight out of the mouth of a preacher son
Born in the land that's run by the gun
A whole lotta worries but the music ain't one
We gotta hold it together now
Hold it together now
We here to show you how
You hear we know you how
You just sway like this, sway like this
Sway like this, sway like this

No worries in the party tonight
(Hear what I say)
No worries in the party tonight
(Hear what I say)
No worries in the party tonight, right?
I said no worries in the party tonight, right?

Ain't no worries
Ain't no worries at all
Ain't no worries
Ain't no worries at all
Ain't no worries
Ain't no worries at all

Just be thankful for what you got (Baby)
'Cause ain't nothing in the life for free
I may not mean a lot to you
But sure you mean a lot to me

Everybody wants it (Hey!)
Everybody needs it (Hey!)
Everybody wants it (Hey!)
Everybody needs it (Hey!)
Special edition
Special edition, baby
Come get it baby
Come get it baby
C'mon now
I know you really really really want it
You want it
