

Around the World

Fat Joe

Is this what it's about baby?
(ohh)
Fuck in the champagne lets
Toast to the cocaine
Put me in the g4 plane
Now we in g5 to go with these eyes
Rolling a 1000 niggers deep
You use to love it
Now it's about just you and me
Bitch you bluffing
I ain't playing
I'm just saying
Let a nigger live
I was fucking them hoes
I put you where I live

(Oooo)
You had the keys to the panorama
Always tryna blame me
You need to blame the mirror
I blame myself for fucking with you girl but
Couldn't help but love the way the Spanish fit you girl
All that ass, slim waist
Nice walk, cute face, sick taste
Bell Harvard gone miss you boo
And the condo security guards they gonna miss you too

Let's take a trip, let's take a trip, let's take a trip aroooooound the world

Oooh
Got killers on the private
No need for public defenders
When you get the kind of G's that I get
Watch the sunset from up above
I swear to God I seen a trials fall from up above
Let's take a trip somewhere special where there's water
Then we'll take a dip
You can order you some diamonds with a side of grits
Sip mimosa; get fucked to sounds of Vandross, Luther
You know listening might lose ya
Don't diss him, he might shoot ya
Paradise is just step away
Look in my eyes I take your breath away

Let's take a trip, let's take a trip, let's take a trip aroooooound the world
Ohhhh
You don't have to run no further baby
'Cause I'ma keeps on doing my thing,
Yeaaaa
Ohhhhhhhh

Oooooooooo
Lets take a trip, lets take a trip, lets take a trip aroooooound the world
Ohhh
All around the world we go
London & Tokyo
Where ever this long journey takes us we'll gooo

If you don't, then I don't care
'Cause I'm gone fuck
Every bitch around the world
