Fat Joe

Pain  
You hear the pain in my voice  
We couldn't do it without you  
Love you so much momma

Die motherfucker die  
That's what them niggas was yellin  
Out them Caddy sunroofs while they lettin loose  
My momma there when a nigga was shot  
I was pitchin them rocks, had to live in them pots  
My son autistic my momma fightin the cancer  
Prayin for answers I'm out here takin them chances  
Round the time my brother's the plug  
Who'd of thought damn my nigga go blind from usin drugs  
It's 360 when them niggas hit me  
Almost died in the hands of a coward like a scene out of Power  
When Ton was killed all I had was my momma  
Always bringin the drama  
Had to deal with the trauma  
My momma

She the one that made a nigga like this

I was born in a fire Product of Myra  
Public school teacher English and writing  
Who taught me how to open my third eye up  
The law of attraction the power of mind  
And somehow provided when funds was all tied up  
And still paid for all of my studio sessions and even drove me there though  
When I hit the booth I turned to a hero thanks to my dear old (mom)  
When I got hit with them sexual assault charges on some fraud shit  
On the news you and grandma saw it it broke my heart the hardest  
And I almost lost all it friends stopped callin but you was in court right t

here with me bawlin I cried too  
You said the truth gon come out next thing you know they dropped all the charges real shit  
You done see me bleed  
You done see me black and blue on my knees  
You done see my cry out dealin with this hate and motivate me wow  
And now look what happened ain't no other nigga from the city that went back to back to back to back to back to back platinum (woah)  
You my red carpet they ain't seen it like this since Donda and 'ye (get it)  
My momma got lead poisoning so why the fuck you think she cares so much about girls and boys in Flint  
She like they gotta go from boys to men from princess to queens and if they ain't being heard then you gotta be they voices then (you)  
Ain't enough checks in the world to repay you  
Only was is in the next lifetime I be one of your parents that save you
