

I'm just blowing bands with my best friend  
Designer matching, never wear the same shit  
Pouring fours, yeah I'm feeling kinda dazed bitch  
She don't even love me, she just want the clout, kid  
I got a best friend now, VVS drip down  
Raf Simons when I step  
Got her buggin' all wild

All you bitches fake now

Gucci from the waist up  
Girl stop, bring the pints in  
Shorty wanna bite me  
Two cups, mud sprite

Metal fast, 'Rari's fast  
Skrting out, run the gas

Step around, we dumping it  
Designer down with the shits

Girl, you got me stressing  
Can't you see I need you too?
