

## Old School Values

Fat Nick

I can't keep waitin' on you  
She's so stuck on old-school values  
I can't move on without you  
All my life, wondered why I hate you  
I can't keep waitin' on you  
She's so stuck on old-school values  
I can't move on without you  
All my life, wondered why I hate you

Fucked up, didn't know shit that I was goin' through  
She don't love me like she really used to  
Why do I believe you when it's not true?  
Scraped my knees and bruised is what it's comin' to you  
Now I love you, got me feelin' nauseous  
All I got is ketamine, switchblade in my pocket  
Hopin' that I die to make your life feel haunted  
Could've been [?], but now you in the moshpit

Fuck all the things I said  
Leave now and don't pretend  
You left me feelin' dead  
Texts I sent turned to read  
Fuck all the things I said (Last time I'm ever callin', never see me again)  
Leave now and don't pretend (She got a problem with me and every one of my friends)  
You left me feelin' dead (Last time I'm ever callin', never see me again)  
Texts I sent turned to read (She got a problem with me and every one of my friends)

I can't keep waitin' on you  
She's so stuck on old-school values  
I can't move on without you  
All my life, wondered why I hate you  
I can't keep waitin' on you  
She's so stuck on old-school values  
I can't move on without you  
All my life, wondered why I hate you

I'm not here long, makin' excuses  
I made it this far with many bruises  
She grabbed the gun, I hope she used it  
(Go use that shit, bitch)

I can't keep waitin' on you  
She's so stuck on old-school values  
I can't move on without you  
All my life, wondered why I hate you  
I can't keep waitin' on you  
She's so stuck on old-school values  
I can't move on without you  
All my life, wondered why I hate you

Last time I'm ever callin', never see me again  
She got a problem with me and every one of my friends  
Last time I'm ever callin', never see me again  
She got a problem with me and every one of my friends

I can't keep waitin' on you  
She's so stuck on old-school values
