Save Me

Fat Nick

Movin way too fast on my drug shit
Take another Xan, take another Perc can't feel shit
I am all alone with a bad bitch
See my bankrolls stack up it's far from average
Movin way too fast, I'm a drunk shit
Take another Xan, take another Perc can't feel shit
I am all alone with a bad bitch
See my bankrolls stack up it's far from average

I've been thinking about my past and how my life is rearranged
Everything from the women and the diamonds on my chain
Now they talk to me with
R -E- S -P- E C- T
You can mirror all my styles but you cannot be me
Baby don't play me, I need you to save me now
Don't say my name unless you want me right now
I can't even stand myself
How could I stand up to you
Underground Underdog look at my eyes you can tell when I'm tell
ing the truth

Movin way too fast on my drug shit
Take another Xan, take another Perc can't feel shit
I am all alone with a bad bitch
See my bankrolls stack up it's far from average

My bitch she loves drugs, she can't love me
All I got are VVSes dancin they all on me
I just dropped a check cause designer helped my feelings
I don't wait on time, man these Percys do they healing
All alone, counting money this is my shit
I won't wife no thot, I'll just go beat my own dick
9th grade dropped out bitch I'm just flexin' on my own shit
I remember when I kissed you, yeah just fuck that shit

Movin way too fast on my drug shit
Take another Xan, take another Perc can't feel shit
I am all alone with a bad bitch
See my bankrolls stack up it's far from average
