Fuck depression, keep expressing  
Lesson learned, I'll keep 'em guessing  
Blast 'em from the chest  
A culinary existential-gasm  
Father ðæmon's breaking through the lake of fire  
Cataclysm  
Find your family, kiss 'em bye  
Ask them if they'll really miss you  
Giving up everything  
Now that I'm numb off the pain  
Only delayed  
Give 'em a day that they waitin' for pain  
And I'm killing my bitch on psilocybe, oh say  
I'm [?] but knock on wood  
Just like I told you back in 2011, I'm feelin' the pain  
I might cut my veins with diamonds
